INSIGHT-519 Arch benchmark/testing - CGMR table (1)
INSIGHT-506 Arch benchmark/testing - Doc Gen (2)
HCP logs into Discover entry point
Land on the patient directory page
Search for patient
Call API to generate report
Call mock Cloud? Not necessary with new architecture.....
Pull data from database
Generate the report
Mock Okta?
INSIGHT-479 Cloud testing (2)
INSIGHT-384 Arch benchmark/testing - Cloud ETL - what is the point of this one if we're changing the ETL
Call cloud to get most recent data
INSIGHT-528 Arch benchmark/testing - Other (api, factory, dash/eros ETL) (3) - needs to be split
INSIGHT-528 Arch benchmark/testing - Other (api, factory, dash/eros ETL) - need more details on this
Alex T: needs to be split; Raul working on this
Alex T will work on this next week
Benchmarking features = high limit of capacity; ALSO make some changes and run tests again
Generate Insights weekly
Upload Dash/Eros data
Performance Testing features = proving requirements are met
INSIGHT-479 Cloud testing (2)
24 hour cloud call

INSIGHT-267 E2E applications
INSIGHT-477 User navigation
PWD logs into Discover entry point
Land on Insights page
View previous week insights
Mock Okta?
View details

Q3
Q4
INSIGHT-482: Placeholder for architecture improvements from performance testing (Q4)
Alex T: can be done when we have Devops capacity. Can be Q3/Q4 based on capacity (Q4?).
INSIGHT-383 Scalability enabler - Doc Gen Scaling (Q3 or Q4)
Alex T: needs to be done for FMR. Can be Q3/Q4 based on capacity (Q4?). We do have limited ETL engineer capacity.
INSIGHT-316 Tech Debt Reduction for Cloud ETL - support cloud API evolution (Q3 or Q4)
Alex T: Needs splitting and reprioritizing for FMR
INSIGHT-276 Tech Debt Reduction for Cloud ETL - Backlog (Q3 or Q4)
Alex T: subjectively it is a filler, images are served through CDN/Blob Storage, there is no performance impact on our infrastructure, benefit is potential user experience improvement. I would push it to FMR+, unless you need a filler for FE and Devops. Can be Q3/Q4 based on capacity (Q3 if not pushed out?).
INSIGHT-449 Technical: FE Tech Debt - Image Performance (Q3 or Q4)
